

International Innovation Symposium 2024

The International Innovation Invention Symposium (IntIIS) will be an annual event for all researchers, postgraduates, undergraduates, academicians and even practitioners. It will be a day of platform to discuss and share the invention and innovation ideas, in line with STEM and TVET education approach in Malaysian Education Initiative.

The Symposium aims to provide a platform for all researchers, postgraduates, undergraduates, academicians and even practitioners with the unique opportunity to exhibit the invention and innovations on the related fields or themes. This platform is not only for built environment; but it also involves engineering, management, business, enterprise, all other professions to work as a team to make the project success.

Don't miss this opportunity to expand your knowledge!

Shaping Tomorrow's World Today
