

Is Our Wider Community Taking Esg on Board?

Andrew Hurley (USA)

Key words: Keyword 1; Keyword 2; Keyword 3

SUMMARY

Environmental, Social, and Governance (ESG) and business trends improving value to society.

Bio:

With more than 30 years of experience in Geomatics, Andrew Hurley serves as Hexagon's Geosystems Division Global Commercial Manager for U.S. Canada, MexAm and ANZ. He is responsible for driving and developing the company's business strategy and new business models across all product lines / solutions and segments including total stations, GNSS and reality capture.

Prior to his current position, Hurley was the Business Manager with P&L responsibility P&L for Geomatics in the US and Canada. In this position, he developed and executed strategies to keep the company's regional operations on the leading edge as a technology innovator and premier solutions provider in surveying, engineering and other fields that require accurate measurement and precise positioning.

After graduating with Honours in 1987 from the Dublin Institute of Technology with a H-Dip in Geo-Surveying, Hurley practiced land surveying for nearly a decade in the United States, Saudi Arabia, Ireland and the United Kingdom before returning to the U.S as a support engineer with Leica Geosystems in 1994. During his 25-year tenure with the company, he has held a variety of increasing challenging roles.
