

# **Digital Transformation, Machine Learning, Automation , and Artificial Intelligence (AI): The Next industrial Revolution**

**Bryn Fosburgh (USA)**

**Key words:** Keyword 1; Keyword 2; Keyword 3

## **SUMMARY**

Digital Transformation, Machine Learning, Automation, and artificial intelligence (AI) has overtaken the dialog in the media, government, enterprises, and academia. This dialog has been over sensationalized on both its value , safety, and timing. These are tools that will change the way we all work and the nature of that work. However , they are only tools and we as geospatial professionals are backbone of these tools and mechanism to realize the metaverse.
