

How to join the Surveying Education Database

- If your institution or department is not yet in the database, simply fill in the online application form to be confirmed by the FIG office and you are on
- Once you have received your access code, you can start adding course information and submit details for your institution or department
- You are welcome to join the Education Database even if you are not an Academic Member of FIG – however, the Academic Membership will give you additional benefits

How to become an Academic Member

- If you are not yet an Academic Member, simply fill in the online application form or send your application to the FIG Office
- You will then receive a membership certificate from the Bureau and you will get all FIG material by post

The new FIG Surveying Education Database promotes Academic Membership of FIG

www.fig.net

Surveying Education Database –

A Web-based tool for information and communication

Providing large, updated, world-wide information

- More than 400 courses from more than 200 universities
- Covering the full spectrum of surveying education according to the FIG definition divided into 9 categories
- Up-to-date information maintained by the universities themselves

Detailed information is available on-line

- Level of degree and course content
- Information on staff and students
- Links to department web sites and contact persons

Easy-to-use queries

- Search courses specific to a country or a field of specialisation
- Search people in education institutions around the world
- Display statistical information, e.g., number of education staff and students in land surveying in the United States

FIG Academic Membership –

The way to networking

A contact forum for the surveying community

- Providing access to all FIG members and commissions
- Providing access to all FIG material (publications, proceedings, newsletters etc.)

A contact forum for the academics and academic institutions

- Promoting course profiles, CPD activities, exchange programmes through a special site on the Surveying Education Database
- Advertising for research partners, virtual course partners

Promoting an international profile

- Using the FIG academic member logo
- Networking with other academic members

ACADEMIC MEMBER
