

Sound management and administration of land is a precondition for sustained poverty alleviation, economic growth, environmental protection and climate change mitigation.

International and national ORGUT advisors build capacity in land management and land administration projects in Africa, Eastern Europe and the Caribbean.

ORGUT has a unique land administration network and provides consultancy, project implementation and training services to national land agencies funded by World Bank, EU, MCC, Sida as well as other donors.

ORGUT is ISO 9001:2008 CERTIFIED

#### **International Land Administration Advisors**
