

20th Anniversary of Albania Association of Geodesy General Conference

22. 01. 2011

Tirane
Albania

Ladies and Gentlemen

I am very happy for all of you attendees of this hall, my friends, colleagues and members, who have consistently contributed in the various conferences and for all of you that are for the first time in this auditorium.

In the first, I want to congratulate **Albania Association of Geodesy** happy 20th anniversary of the establishment.

Albania and **Association of Geodesy** has walked in the path of progress

Association of Geodesy and Geodesy here in Albania, now finally is oriented to the development.

A special thanks would go to the supporters of AAG's conference.

Thank you for all friends, not only from Albania, but for all regions and abroad.

I would like to say thank you FIG, The President, Markku, Louise and all the Staff, for every thing you do for us.

A special thanks go to Prof. Chryssy Potsiou. Prof. Potsiou is delegated from International Federation of Surveyors especially to follow the conference of AAG. On 8 June 2010 AAG become a member of FIG. Also I want to thank Mr. Nicolaos Zacharias, General Secretary of Hellenic Association of Rural and Survey Engineer, Vice President of European Group of Surveyors.

I would like to thank for their participation:

Representatives from Kosova Association of Surveyors and President Mr. Abdurrahman Kuleta

Prof. Murat Meha, Chief of the Kosovo Cadastral Agency

Prof. Perparim Ameti, Head of the Department of Geodesy in University of Prishtina, Kosove

Mr. Ismail Kabashi, Professor at the University of Prishtina, as well as all the other guests from Kosovo

Prof. Bashkim Idrizi, Professor at the University of Tetova, as well as all the other guests from Macedonia

Mr. Daut Bejta and all the other guests from Montenegro.

Also, I would like to thank:

Mr. Pjerin Marku, Advisor of The Prime Minister of Republic of Albania

Prof. Andrea Maliqari, Dean of the Faculty of Construction Engineering

Dr. Stavri Ristani, Professor, former Deputy Minister of Ministry of Public Works Transport and Communications

The Council of **Albania Association of Geodesy**

All members and Associations here in Albania

Dear Friends and Colleagues

We can not forget persons, engineers who do not live. Let me mention some of them:

Skender Lama, Ndoc Luli, Salih Çene, Niko Anastasi, Gjergji Qeleshi, Kristaq Poga, Pirro Dado, Çesk Begu, Veiz Ostrovica, Dhimo Dhaskali, Stefan Shabani, Alaudin Frasheri, Qazim Herri, Seit Pere, Filip Geci,

And a lot of engineers the most of life dedicated the Profession.

Dear Friends and Colleagues

Albania Association of Geodesy is a very important factor that protects our interests.

Albania Association of Geodesy has done a great job in many topics of Geodesy and will continue to work for its objectives.

1. Protecting the interests, technical, legal, economic
2. Bilding level, Professional, Akademik, Institutional
3. Protection the work of surveyors in different fields

I don't want to stay in the every day problems in our professionally work. I would like to bring attention, together we will work to reduce problems in our professionally work. I invited all Surveyors, Private Company, Topographic Studios, Department of Geodesy, all of you, to identify all the problem make our work difficulty.

I also invited all Surveyors, Privat Company, Topographic Studios, Department of Geodesy, all of you contribute for the conferences we will make in the feature.

I invited all of you to have contact and cooperation between each other. The existence of AAG is very Important for us, for our work, for our economy, and for our professional career.

We have a lot of objectives together.

The most important is publication of the bulletin (magazine) for Geodesy, in the systematic way. The magazine we will not send only in Albania but also worldwide where work and live surveyors.

We will try to participate in various conferences all round the world and to bring here every development, every new think happens with our profession worldwide.

Following we will create commissions in various fields of Geodesy.

We will contribute to grow and progress of the new structure “Young Surveyors” and we will help “Young Surveyors” in their early career.

We will have better cooperation with all private companies, topographic studios, all surveyors wherever they work and live.

We will support the State for legislation and regulations in favor of surveyors.

We will have cooperation with all Associations in Albania and all round the world, Greece, Austria, Danimark, Amerika, Bulgaria, Norwaw, Englandetc

In my closing speech, I wish all the best for you and all the best for the conference.

Thank you

Dipl. Ing. Bledi Stefa

President of AAG
