- Practising Land Surveyor for 10 years
“I suggest that we fly high and keep our feet on the ground at the same time.”

An overall theme

”Building the Capacity”
The theme “Building the Capacity” refers to flying high and also keeping our feet on the ground. I suggest we give priority to the following key issues:

1. Promoting and enhancing the role of FIG
   - Professional development, providing the international forum for development and innovation in all aspects of the surveying discipline.
   - Capacity building, including a Task Force on operational and institutional development.
   - Global development, including increased cooperation with the UN agencies and other stakeholders.
2. Enhancing and maintaining the dialogue with the Member Associations
   - Promoting the benefits of being a Member.
   - Increasing the member base.
   - Deepening development and implementation of the information and communication policy.
3. Promoting FIG as a truly global organization
   - Ensuring global representation in council and commission offices.
   - Ensuring global representation and coordination of the FIG conferences, seminars, etc.
   - Interacting with regional organizations and activities and respecting cultural diversity.
4. Responding to the Millennium Goals
   - Task Force to develop a FIG policy in cooperation with the UN agencies and especially the World Bank.
   - High level FIG/UN conference in 2003 to delineate the FIG global profile in this area.
5. Enhancing the Commission structure
   - Four equal high level committees such as congress or major Working Week.
   - High level Working Week and regional conferences in partnership with the UN organizations.
   - Council initiated expert symposia on topical issues e.g. related to National events.
   - FIG Office to ensure administration, organizational and financial sustainability.
6. Empowering ACCO and the Commission activities
   - ACCO as a dynamic forum for policy making and professional development.
   - Enhancing the profile of the technical programme of the conferences.
   - Establishing an ACCO virtual journal with peer reviewed papers.
   - Promoting a starting kit with guidelines for member states and the chair-elect.
   - Establishing task forces to deal with other commission activities and policy implementation.

FIG is in a state of transition – moving from a country based leadership to a directly elected leadership.

The future of FIG is in your hands.

I would be honoured to serve as your new President.
