

# **Report on Kinematic and Integrated Positioning Systems**

**Dr. Naser EL-SHEIMY, Canada**

**Key words:** GPS, Inertial Systems, Navigational Aid, Vision-Based Systems.

## **ABSTRACT**

The paper presents the final report of the FIG C5 WG3 on Kinematic and Integrated Positioning Systems. It will cover both, the concept of integration and implementation aspects of integrated systems. Examples on current and future systems for mapping, positioning, and navigation applications will be given.
