Florida Surveying and Mapping Society

Louise Friis-Hansen & John Hohol, Co-Conference Directors
Fédération Internationale des Géomètres (FIG)

Re: *FIG Working Week 2023*
Orlando, Florida, USA
May 28 – June 1, 2023

The Florida Surveying & Mapping Society, an affiliate of the National Society of Professional Surveyors (NSPS) founded in 1955, is extremely excited to be able to assist FIG and NSPS with the highly anticipated Working Week in Orlando, Florida. We look forward to providing local assistance and knowledge in making this meeting a tremendous success. In addition, we have been in contact with the Florida Board of Professional Surveyors and Mappers (the Florida's Surveying and Mapping licensing entity), and they have agreed that continuing education credits for seminars held during the Working Week can be provided to attendees through FSMS's Florida Continuing Education provider status.

Orlando is a world-class destination that, in addition to Disney World and Universal Studios, offers a plethora of natural and technical venues that will satisfy any and all Working Week attendees, and will truly be keeping with the conference theme of "*Protecting Our World – Conquering New Frontiers*".

Sincerely,

FLORIDA SURVEYING & MAPPING SOCIETY, INC.

Lou Campanile, P.E., P.L.S.
President

An Affiliate of the National Society of Professional Surveyors and the American Association for Geodetic Surveying
