## **FIG e-Newsletter August 2011**

Dear Colleague,

Welcome to the FIG e-Newsletter, which brings you latest information about FIG and its activities. The information referred here is in full length available on the FIG web site. Thus the e-Newsletter is produced to inform you what has happened recently and what interesting things are going to take place in the near future. The FIG e-Newsletter is circulated monthly by e-mail. The referred articles are in English and written in a way that you are able to extract them to your national newsletters or circulate to your members and networks.

**NB!** FIG office has changed IT provider which now has the consequence that we have difficulties getting through by email to some of our delegates and friends. Please make sure that the @fig.net address is whitelisted in your system (either your own or through an IT department) so that you will receive emails from FIG in the future. We send emails from the following IP addresses: 193.239.98.61, 193.239.98.62, 193.239.98.63. Thank you very much.

### **UN Creates Expert Group to Consult on Managing Geospatial Information**

**GGIM**  
INTERNATIONAL COOPERATION ON  
GLOBAL GEOSPATIAL  
INFORMATION MANAGEMENT

The **United Nations ECOSOC** made history on 27 July 2011 in Geneva by establishing a new intergovernmental body, the **UN Committee on Global Geospatial Information Management**, to bring together, for the first time at the global level, government experts from all member states to consult on the rapidly changing field of geospatial information.

FIG welcomes this initiative, intends to contribute towards this global mechanism that aims at extending the benefits of geospatial information for the betterment of society, environment and economy.

### **Article of the Month – August 2011**

On the FIG web site we publish each month a paper called the Article of the Month. This is a high-level paper focusing on interesting topics to all surveyors. It can be picked up from an FIG conference or another event. The Article of the Month in August 2011 is written by **Frances Plimmer and William J McCluskey**, United Kingdom: **Sustainability and Property Taxation**. Property Taxation is one of the key topics on the agenda of FIG-Commission 9 for the next years. The authors are discussing sustainability in the context of property taxation. They consider that sustainability in property taxation should be considered from three perspectives – the sustainability of the tax object (land and buildings), the sustainability of the tax system itself and the sustainability of the uses to which the yield from property taxation are put. This paper was successfully peer reviewed and presented at the FIG Working Week in Marrakech May 2011.

## United Nations Economic Commission for Africa - Africa Preparatory Meeting on Global Geospatial Information Management, 8 – 10 August, 2011, Addis Ababa, Federal Democratic Republic of Ethiopia

Delegates to the GGIM Africa Preparatory Meeting in front of the United Nations Conference Centre, Addis Ababa, Ethiopia

With the establishment of United Nations Committee on Global Geospatial Information Management, the UN has made history. The United Nations Economic Commission for Africa (UN-ECA) has taken the role to lead the initiative in Africa, so as to ensure that GGIM adequately reflects African issues and shape its direction and dimension to reflect Africa's interest. The Commission convened the GGIM Africa Preparatory Meeting to consult member states in Africa with a view to develop the continent's needs, prospects and vision for an overall Geoinformation Governance in Africa.

## Vice President Iain Greenway attends meeting of the joint board for the Geospatial Information Societies, Paris July 2011

The joint board for the Geospatial Information Societies

The Joint Board is becoming more important with United Nations initiatives in geospatial information management – the UN wants to deal with the profession through one organisation. The Board members agreed to continue to try to coordinate the work of member organisations in building capacity in Africa, as well as in raising the profile of the power of geospatial information in disaster management. The members also prepared for the UN Global Geospatial Information Management event in Korea in September.

## FIG Working Week 2011 - Biggest FIG Working Week strengthens links between cultures - Marrakech, Morocco, 18-22 May 2011

FIG Fanfare at the Opening Ceremony.

The FIG Working Week "Bridging the Gap between Cultures" and the XXXIV General Assembly was held in Marrakech, Morocco from 18 to 22 May 2011. The Working Week included also the 6th National Congress of the Ordre National des Ingénieurs Géomètres Topographes (ONIGT) that was the local host of the Working Week. FIG 2011 turned out to be the biggest FIG Working Week ever both in the size of the exhibition and the number of participants. More than 1,500 participants from 90 countries attended. The technical programme comprised of more than 90 technical sessions, workshops and special forums. Total number of presented papers was almost 450. The Working Week was held at the fully packed Palais des Congrès in Marrakech.
