BUILDING PROFESSIONAL CAPACITY IN THE SOUTH PACIFIC

Dr. Mele Rakai
President PILPA
President CASLE Pacific

Land Management Department, University of the South Pacific, Fiji

Greetings from the Pacific Region
Outline of Presentation

1. The UN Millennium Development Goals
2. Good Land Governance
3. Problems in the Pacific Region
4. Pacific Regional Initiative for Capacity Building
5. Towards Resolving the Problem
6. Registration and Constitution of PILPA
7. Funding Proposal: AusAID
8. PILPA Questionnaire
9. PILPA Development
10. Workshop Themes
11. Declaration on Land Governance in support of the MDG
12. Comments and Questions.

Problems in the Pacific Region

1. The lack of land practitioners and land professionals in the region.
2. The quality of education for land professionals needs to be further improved by establishing partnerships with tertiary institutions and professional bodies in other countries.
3. The lack of quality professional training like peer support or mentoring and continuing professional workshops after attaining academic qualifications.
4. The lack of engagement between governments and professional associations when developing training courses for land professionals and land practitioners.
5. The lack of adequate resources especially funding to develop and maintain professional links, courses and standards.
PILPA Constitution

PILPA Constitution ~ Objectives

1. Maintain and strengthen professional skills and links.
2. Foster appropriate professional societies in Pacific Island countries.
3. Foster standards in education and professional practice.
4. Extend understanding of the importance of professionals who can deliver land management skills.
5. Encourage people to engage in land professions.
6. Assist interchange of people, information and knowledge in the region.
7. Improve global understanding of Pacific region issues in land and needs for land professionals.
8. Build regional consensus, technical capacities and information sharing.
9. Provide advice to governments, business and communities.
10. Facilitate registration of land practitioners as land professionals.
11. Facilitate reciprocity in recognition of professional qualifications.
12. Facilitate and coordinate CDP programs for land professionals in the region.

Survey of Status of Land Professions in Region.

Overview

PILPA the land Professionals Association in the South Pacific Islands Region

The Questionnaire

The purpose of the questionnaire is to obtain information on the levels of services provided by local professionals and to promote the theme of the conference, which is "capacity building". The questionnaire is designed to capture the current state and the potential for development of land professionals in the region. It is intended to support the development of a regional database of land professionals and their services.

The information gathered from this survey will be used to advise professionals on the current state of their practices, and to facilitate networking and collaboration. The survey is open to all professionals and their representatives in the region.

6/3/2010
PILPA Questionnaire

Purpose is to obtain information on:
1. General types of work done by surveyors, planners, valuers and land registration practitioners, cartographers, land/estate managers.
2. Estimated number of professionals needed for 5, 10, 15 and 20 years.
3. Status of existing skills and qualifications for each profession.
4. Issues for each profession.
5. Training needs for each profession.
6. Education needs for each profession.
7. Additional issues.

Funding Proposals: AusAID

The goal of the proposal was to establish a Secretariat for PILPA.
The proposal requested funding for expenses to operate the PILPA Secretariat. Operations include:
1. Staffing and office operations.
2. Establishing a website for information dissemination and networking.
5. Planning and development of a strategy.

Funding was also requested for initial CDP workshops and Council/Board & General meetings.
The UN Millennium Development Goals (MDG)

FIG and PILPA intend to play a strong role in building the capacity to design, build and manage national surveying and land administration systems that facilitates sustainable Land Governance in support of the Millennium Development Goals.

The eight Millennium Development Goals are:
1. Eradicate extreme poverty and hunger
2. Achieve universal primary education
3. Promote gender equality and empower women
4. Reduce child mortality
5. Improve maternal health
6. Combat HIV/AIDS, malaria and other diseases
7. Ensure environmental sustainability
8. Develop a global partnership for development

Good Land Governance is

1. Sustainable and locally responsive.
2. Legitimate and equitable.
3. Efficient, effective and competent.
4. Transparent, accountable and predictable.
5. Participatory and providing security and stability.
6. Dedicated to integrity.
Pacific Regional Initiative for Capacity Building

What is Capacity Building?
Expanding the pool of capable local landholders and land practitioners through relevant and accessible education, training and professional development.

Regional initiative for Capacity Building includes three components:
1. Information sharing and coordination
2. Formal education and Continuing Professional Development (CDP)
3. Funding facility

Workshop themes
1. Climate Change and Natural Disasters
2. Access to Land, Coastal and Marine resources
3. Good Governance in Land Tenure and Administration.
