Success in Life... Why does it look like Polish pierogi?

Inspired by the 2022 FIG Congress in Poland and motivated by the current President Diane Dumashie, I want to motivate everyone to act and successfully achieve their professional and private goals.

Success in Life... Made in Poland

I should mention ... Polish successful people:

- Nicolaus Copernicus born 550 years ago,
- Eugeniusz Romer a cartographer who published the FIRST magazine describing our geodetic activities 100 years ago.

Success in Life...

Each day, I will be better than yesterday.

This is the source of strength for each of us.

There are thousands and hundreds of examples of such resolutions that have come true, and the conscious building of one's own zone allows the universe to support and help us in such activities.
