INTERNATIONALES AMT FÜR KATASTER UND GRUNDBUCHWESEN

## OICRF Annual Report 2020

OICRF - the International Office for Cadastre and Land Records - is a permanent body of FIG. OICRF serves as a documentation and study centre for land administration.

## The OICRF Land Administration Library in 2020

OICRF contents are available in different languages. All of the available documents and the most recent publications can be accessed electronically at [www.oicrf.org](http://www.oicrf.org). In 2020 efforts have been made to eliminate backlogs and a start has been made to renew the website.

## Standardisation in Land Administration

OICRF is strongly involved in the development of standards related Land Administration. This concerns the ISO 19152 Land Administration Domain Model (LADM) and the Social Tenure Domain Model (STDM).

The second edition of the Land Administration Domain Model is under development. There is agreement within ISO TC211 to publish LADM Edition II as multipart. Part 1 concerns "Land Administration Fundamentals". The development of this part started within the Technical Committee 211 on Geographic Information within the ISO. Part 2 concerns "Land Registration". The development of Part 2 is expected to start in 2021. It is planned (during the Working Week 2021) to involve the FIG Commissions into this process – and UN organisations and platforms as well as the World Bank, IHO, OGC, Cinder/lpra, etc.

## Contact

OICRF does its utmost to provide the best possible service for anyone who requests information. This is made possible by the support of our host: Cadastre, Land Registry and Mapping Agency – Kadaster – of the Netherlands.

A handwritten signature in black ink, appearing to read 'Christiaan Lemmen', is written over a light blue grid background.

Prof Christiaan Lemmen  
OICRF director

A handwritten signature in black ink, appearing to read 'Pauline van Elsland', is written over a light blue grid background.

Ms Pauline van Elsland  
OICRF secretary
