Vice President
2023-2026

Nominee:	
Name:	Qin YAN
Member Association:	Chinese Society for Geodesy Photogrammetry and Cartography (CSGPC)
Country:	P.R.China
Contact address:	28 Lianhuachixi Road, Haidian District, Beijing 100036
Email address:	2260057147@qq.com, yq@casm.ac.cn
Age/birthday:	54, 21 April 1968
Educational background & Qualifications:	2002-2008: Doctor of Photogrammetry and Remote Sensing, Information Engineering University. 1997-2000: Master of Photogrammetry and Remote Sensing, Wuhan Technical University of Surveying and Mapping. 1986-1990: Bachelor of Photogrammetry and Remote Sensing, Wuhan Technical University of Surveying and Mapping.
Field of surveying discipline	Photogrammetry, Remote Sensing, Geographic Information System, Integrated Surveying of Natural Resources.
History of Employment:	Vice President, Chinese Society for Geodesy Photogrammetry and Cartography, since 2021. President, Chinese Academy of Surveying and Mapping (CASM), Ministry of Natural Resources of China, since 2020.
- Current position	
- Previous position(s)	Deputy Director General, Department of Land Use Planning, Ministry of Natural Resources of China, 2018-2020. Vice Mayor, the People's Government of Yichun City, Heilongjiang Province of China, 2016-2018. Deputy Director General, Department of Science, Technology and International Cooperation, National Administration of Surveying, Mapping and Geoinformation of China, 2014-2018. Successively held the posts of Institute Deputy Director, Division Deputy Director, Division Director and Vice President, Chinese Academy of Surveying and Mapping, 2002-2014. Engineer, Surveying and Mapping Engineering Institute, Hebei Bureau of Geology and Mineral Resource Exploration, 1990-1997.

2023-2026

Nominee's statement

My motivation to be FIG Vice President:

As an important part of the FIG community with a shared future, China should shoulder its responsibility and make its due contributions to the realization of the FIG vision of keeping, and even improving, its role as the premier non-governmental organization on geospatial information and the management of “land”, the “sea” and the “built” environment that represents the interests of surveyors worldwide.

China is a major country in surveying and mapping. Its surveying and mapping technology has developed rapidly and synchronously with the world and made great achievements. China hopes to take surveying, mapping and geoinformation, as a public technical means of mankind, to integrate into the global surveying, mapping and geoinformation community in the fields of Beidou Positioning, Location Based Services and Digital Economy, etc., to help realize the 2030 UN agenda goals and promote earth observation and big data processing in natural disaster alleviation, global poverty alleviation and climate change response, as well as future artificial intelligence mining and services for global observation data.

In China, there are 60 universities and research institutions, 150,000 enterprises, and more than 3,000,000 practitioners related to surveying, mapping and geoinformation. The Chinese Academy of Surveying and Mapping (CASM), where I work, is the flagship of China in promoting the progress of surveying, mapping and geoinformation technology. Prof. Pengfei Cheng, the former FIG vice president, and Prof. Jixian Zhang, the current FIG vice president, both worked in CASM as the president. I hope that I and CASM, CSGPC and the Ministry of Natural Resources of China behind me will have the opportunity to continue to support the work of FIG and do better based on their work.

To me, serving as FIG Vice President is an opportunity to further improve the services of FIG as a leading surveyor's family in the world. I believe that I can effectively contribute to the aims of realizing the vision of FIG, keeping the family sustainable development and making the industry flourish, and make certain progress in this regard.

Nomination Template

Vice President

2023-2026

What I can offer in support of FIG's aims and objectives:

With my experience in government, industry and academic community, and in serving ISPRS and other organizations, and my greatest passion for our profession, I would, if elected, continue the great effort led by the current leadership team and meanwhile strengthen and promote the following initiatives:

Making FIG stronger and sustainable. I would like to attract more academic institutions, universities and corporations in China to join FIG as FIG members, encourage the active participation of Chinese female surveyors, young surveyors and students of surveying and all related studies in the work of FIG as well as its 10 commissions, and further make the FIG family stronger and sustainable.

Strengthening the activeness of FIG in Asia. This would include, for example, establishing a FIG Asian Regional committee/network to carry out relevant activities in conjunction with FIG's aims and missions and issues of common concern to the region.

Assisting FIG international influence growing. I can effectively make contributions to international cooperation between the FIG and other related international organizations, such as UNGGIM, GEO and ISO, etc., by strengthening exchange and cooperation with colleagues who work in these international organizations around me.

Especially, providing more support to developing countries. I would like to make an overall plan for the related supporting work of FIG, the United Nations Global Geographic Information Knowledge and Innovation Center, and China's foreign aid training programs, conduct free training for administrative and technical personnel in developing countries, provide geospatial information public goods for the world, and strengthen the capacity in production, management, application and service of geospatial information in developing countries, to help developing countries achieve the 2030 UN agenda goals and contribute to building a community with a shared future for mankind.

Vice President
2023-2026

<p>My key skills for the Vice Presidency and FIG Council:</p>	<p>My long-term management and research experiences in scientific, technological and international cooperation in different government departments and research institutions, as well as my work and service experiences in international and domestic academic and professional communities, made me have the characteristics of deep professional background, excellent organizational leadership and strong integration of resources. I think these should be useful to the works of the FIG.</p>
<p>Any other supporting information:</p>	<p>I will observe all the rules and regulations of FIG and work actively and fairly to promote FIG's further development.</p> <p>In the event that a current Vice President is elected as the next FIG President, I will also be available for the Vice President for a shorter period (2023-2024) if so required.</p> <p>CASM will provide the necessary secretarial, administrative and financial support to the Vice President to carry out my duties.</p>

Nominator	
Name of Member Association:	Chinese Society for Geodesy Photogrammetry and Cartography (CSGPC)
Name of Proposer:	Chaozhi SONG
Position in Association	President
Contact address:	28 Lianhuachixi Road, Haidian District, Beijing 100036
Email address	346750153@qq.com
Proposer's Statement	
Why the Association wants to propose the Nominee	The CSGPC has always been pursuing and practicing continuous contributions to the FIG. The vice president of CSGPC Prof. Qin YAN has built up a reputation of great trust in China through many years' research and management work in the field of surveying, mapping, geoinformation and integrated surveying of natural resources. She has rich experiences in the international and domestic academic and professional communities and has also been strongly interested in international professional activities. These are enough to prove that Prof. Qin YAN is qualified for the position and is the right candidate for the FIG vice president.
What support (financial, administrative and others) can the Association provide to the Nominee if elected Vice President	The CSGPC will provide its full support to Prof. Qin YAN to play an active leading role in FIG. CASM will ensure Prof. Qin YAN for her time spent on preparation, planning, management and reporting of the FIG work, as well as travels for the Council meeting, Congress, General Assembly, Working Weeks and related commission activities during the FIG term 2023-2026. The CSGPC and the CASM will provide financial support to Prof. Qin YAN for her FIG duty term.
Any other supporting information:	The CSGPC is willing to support Prof. Qin Yan to organize a FIG Regional Conference and a Council Meeting in China during her FIG duty term. The registration fees and accommodation in China are free for Council and Honorary members.
Name of Seconder:	Zhenzhong Peng
Position in Association	Vice President and Secretary General
Contact address:	28 Lianhuachixi Road, Haidian District, Beijing 100036
Email address	113260895@qq.com
