# WHY NORWAY AND STAVANGER?

EDGE  
OF  
NORWAY®

Norway is prepared, ready and highly motivated

Norway, and particularly the Stavanger region is high-tech

Norway represents safety and a high standard of professionalism

Stavanger and Norway is in the middle of everywhere, it's on the edge

OF  
NORWAY®

We especially want to spread the knowledge about the Arctic and the oceans importance for climate understanding and Geomatics as tools to contribute to the Sustainable Development Goals and to the Climate Agenda.

Norway's price level is actually quite competitive, and not as expensive as before.

Good international flight connections

Traveling in the city and around the region is easy, affordable and sustainable!
